POWER PLATE ACCELERATES YOUR TRAINING UP TO 5X

Many traditional exercises can be done on the Power Plate, and the results are magnified. It's thanks to our proprietary PrecisionWave™ Technology, which is engineered precisely to activate the body's natural reflexive response to vibration. The surface vibrates 25 to 50 times per second (25Hz to 50Hz), resulting in a natural response that works your muscles harder while doing the same exercise.

POWER PLATE CAN HELP YOU LOSE WEIGHT

Significant weight loss is often reported by those who use Power Plate regularly in conjunction with a healthy calorie-controlled diet. One of the reasons for this is increased metabolic rate. Research also suggests that as part of a healthy lifestyle, Power Plate may have a significant impact upon the reduction of cellulite and body fat. This may occur due to increases in metabolism, both during and following exercise.

INCREASE YOUR STRENGTH AND FLEXIBILITY

The Power Plate vibrates up and down, side-to-side, and front-to-back, destabilizing the body and promoting the reflexive engagement of soft tissue. Involuntary muscle activity promotes quick, reflexive responses in muscle fibers and an increase in circulation, that means development in whole body balance, mobility and stability, strength and motor control (muscle memory), in a shorter time frame than with traditional methods.

YOU'LL RECOVER FASTER

Research has shown that whole body vibration positively affects to training. Massage on a Power Plate simulates lymphatic fluid, eases pain, promotes faster recovery of damaged muscles and tendons, improves joint function, and helps you return stronger – all in only a few minutes a day. And even beyond that, you can exercise using a Power Plate with less chance of strain due to the patented multidirectional vibration. With regular use, you'll find that you prepare faster, perform better and recover faster.

EXPERIENCE A COMPLETE WORKOUT IN JUST 15 MINUTES

With whole body vibration training, you get a complete, full-body workout incorporating stretch, balance, core, strength-building and massage, all in only as little as 15 minutes. Some models even have a virtual trainer with more than 1,000 built-in videos.

BUILT WITH THE HIGHEST QUALITY

Power Plate is the market leader with more than 15 years of experience in whole body vibration training, products, and services. With more than 1,000 built-in video workouts, the Power Plate is the most advanced. Power Plate provides a superior stimulation to the neuromuscular system. And we're the only specialization company in the field to be a certified medical device manufacturer.

EXCEPTIONAL ORIGIN. VISIONARY CRAFTSMANSHIP.

D'USSÉ Cognac originated with the vision of Cellar Master Michel Casavecchia. For more than 20 years, Michel has been curating some of the world's finest Cognacs at the legendary Château de Cognac, and today stands as the most experienced living Cognac cellar master. He set out to create a distinctively bold yet remarkably smooth Cognac, and the result is D'USSÉ.

The Château de Cognac, one of the oldest Cognac houses in France, has a rich 200-year legacy of blending some of the world's finest spirits. The Château's proximity to the River Charente results in two climates within its walls: a humid cellar that results in fruity, floral notes, and a dry cellar that brings out the woody, spicy flavors of the Cognac. Blending the two sauté-de-vie results in the boldness of character that Michel has brought to D'USSÉ.

D'USSÉ SIMPLE COCKTAILS. RELAXED AND REFINED.
